**Evergreen Country Day School Students Successful at Mountain Area Fair:
ECDS Students Take Home Four of Nine Top Prizes in Regional Competition**

Thanks to the hard work of Mr. Olson, Mr. Zuckerman, and the students, the 2008 ECDS Science Fair was a great success. Several students from ECDS went on to compete in the Mountain Area Science Fair, comprised of 11 additional schools in the area. In the grade 4-6 division, students from Evergreen Country Day School took home an incredible 4 first place ribbons out of a total of 9 categories entered. There was an additional first place in the 1-3 grade division. This is a real tribute to our students and science teachers. Congratulations to Riley Brook, Lauren Pitzer, Laura Temple, Caroline Kawula, and Ronan McIntosh for this honor at the Mountain Area Fair. Special thanks also go to Stefanie Cochran, PTO-Chair of the Science Fair, and all of the judges that helped make this evening such a tremendous success. Winning projects will be displayed at the Evergreen Library through the end of February. The success at the fair is a result of ECDS's commitment to a dynamic education in the sciences. A hands-on, lab science experience begins with our kindergarten students.
